Subject: Sample of EPA Inspection Tracking

Erin,

Here is our spreadsheet of how we are trying to track EPA activity for stationary sources (minus 112r and asbestos) and defeat device evaluation (mobile) gained from Fed Coop discussions and emails received from EPA.

This is not totally up to date but is an example of a way to track.

We like the ACHD updates from EPA as they seem to contain more information.

For your assistance with DEP regions, link below and attachment.

<https://www.dep.pa.gov/About/Regional/Pages/default.aspx>

Please let me know if this is helpful.

Thanks!

Susan
